

TENNIS PRO ON CALL

Short a pro?

I ran tennis clubs for 25 years in CA, AZ, MD and remember well the staffing problems each year in March, April and May because the kids haven't gotten out of school yet, and in September and October when they all go back.

If you find yourself short a pro, give a call, the number's BALL (410-905-BALL). Rate negotiable.

I can teach all ages, any ability, any time, but prefer adults in the evening. I have a "Tennis Moves to Music" exercise class I can teach indoors or out, where all the moves are choreographed to the ten shots of tennis, but I don't do "tennis aerobics."

I have a free e-book for parents and new pros on how to teach kids over 10, and have been coaching high school tennis teams the last few years, but am not currently working with under-10s or tournament juniors.

If you need somebody to run a Friday Night Round Robin or a weekend tournament, I've done a thousand.

Fill-in for doubles? I can adjust my level to whatever is required. Currently hitting at a 4.5-5.0 level.
